CONSIDERING Article 21 of the Treaty which provides for areas of cooperation, Article 22 of the Treaty which provides for the conclusion of Protocols which may be necessary in agreed areas of cooperation and Article 5 of the Treaty which provides for promotion and defence of peace and security as one of the objectives of SADC;

CONSCIOUS that illegal firearms, most commonly used in the perpetration of crime, contribute to the high levels of instability, extended conflict, violence and social dislocation evident in Southern Africa and the African continent as a whole;

AWARE of the urgent need to prevent, combat and eradicate the illicit manufacturing of firearms, ammunition and other related materials, and their excessive and destabilising accumulation, trafficking, possession and use, and owing to the harmful effects of those activities on the security of each State and the Region and the danger they pose to the well-being of people in the Region, their social and economic development and their rights to live in peace;

REAFFIRMING that priority should be given to prevent, combat and eradicate the illicit manufacturing of firearms, ammunition and other related materials and their excessive and destabilising accumulation, trafficking, possession and use of firearms, because of their links with, *inter alia*, drug trafficking, terrorism, transnational organised crime, mercenary and other violent criminal activities;

CONVINCED that the prevention, combating and eradication of the illicit manufacturing of firearms, ammunition and the other related materials and their excessive and stabilising accumulation, trafficking, possession and use requires international cooperation, the exchange of information, and other appropriate measures at the national, regional and global levels;

STRESSING the need, especially during peace processes and post-conflict situations, to maintain effective control over firearms, ammunition and other related materials;
