"**head of department**" has the meaning assigned to it in the Public Service Act, 1994 ([Proclamation No. 103 of 1994](#));

"**Minister**" means the Minister responsible for social development;

"**offices**" includes the national offices, provincial offices, district offices or any other office within the jurisdiction of the head of a provincial department and the national department of Social Development;

"**official**" means a person employed by the national or provincial department of social development under the provisions of the Public Service Act, 1994;

"**partial care facility**" means a partial care facility that provides an "after school service" as defined in regulation 12(2) of the General Regulations regarding Children made in terms of section 306 of the Children's Act (Government Notice No. R. 261 of 1 April 2010 published in *Government Gazette* No. 33076);

"**permit**" means a permit issued in terms of direction 12;

"**premises**" means the physical location where an early childhood development programme is conducted either on a permanent basis, in the case of a partial care facility, toy library or child minder, or on a temporary basis, in case of a playgroup, mobile early childhood development programme or parent support group, and includes all administrative spaces associated with the programme or being part of the physical location of the programme and outside play, recreation and waiting areas;

"**the Regulations**" means the Regulations made in terms of section 27(2) of the Disaster Management Act, 2002 ([Act No. 57 of 2002](#)), and published in *Government Gazette* No. 43258 under Government Notice No. R480 of 29 April 2020 as amended by Government Notice No. 608 of 28 May 2020 and Government Notice No. 714 of 25 June 2020;

"**staff**" unless otherwise indicated, includes an early childhood development educator, early childhood development practitioner, administrative and other support staff, either full time or part time involved in the operations of the early childhood development programme; and

"**standard operating procedures**" means the standard operating procedures and guidelines for early childhood development programmes on COVID-19 as published on the Department of Social Development's website or any amendment thereof.

2. Objects

The objects of these directions are—

- (a) to provide for arrangements for a phased return of children who have attended an early childhood development programme or a partial care facility immediately prior to the commencement of the lock down to such programme or facility;
- (b) to provide for an early childhood development programme or a partial care facility to comply with the provisions of, and obligations provided for in, the Regulations; and
- (c) to ensure a uniform approach in respect of the manner in which children may return to early childhood development programmes or partial care facilities.

3. Scope and application

- (1) These directions apply to all—
 - (a) early childhood development programmes;
 - (b) partial care facilities registered or conditionally registered in terms of sections 76 or 80 of the Children’s Act, or that are required to be registered in terms of the Children’s Act, that provide an "after school service" as defined in regulation 12(2) of the General Regulations regarding Children made in terms of section 306 of the Children’s Act;
 - (c) children that attend an early childhood development programme or partial care facility;
 - (d) parents who decide to return a child or children to an early childhood development programme or partial care facility;
 - (e) civil society organisations that have a direct interest or involvement, either directly or indirectly, in the operation, training and support of early childhood development programmes or partial care facilities; and
 - (f) any official.
- (2) The provisions contained in these directions apply for the duration of the national state of disaster, unless otherwise indicated.

4. Reopening of early childhood development programmes or partial care facilities

- (1) An early childhood development programme, other than a programme referred to in sub-direction (5), may, subject to sub-directions (3), (4), (6) and direction 7, reopen immediately subject to the appropriate and/or prescribed safety measures being in place and provided it —
 - (a) is registered or conditionally registered in terms of section 95 or 98 of the Children’s Act;
 - (b) has applied to be registered in terms of section 96 of the Children’s Act with a provincial department of social development: Provided that proof that such an application was submitted, and that the application was not rejected in terms of section 82(1)(a) of the Children’s Act, is furnished to the provincial department of social development;
 - (c) has received a notice of enforcement to register in terms of section 85 of the Children’s Act: Provided that proof of such notice of enforcement is furnished to the provincial department of social development; or
 - (d) is required to be registered in terms of section 95 of the Children’s Act, but is not registered and has not applied to be registered: Provided that it undertakes in writing as part of Form 1 to submit its application to be registered within six months after the date of reopening.
- (2) A partial care facility that provides an after-school service, other than a service referred to in sub-direction (6), may, subject to sub-directions (3), (4) and (7), reopen immediately subject to the appropriate and/or prescribed safety measures being in place and provided it —
 - (a) is registered or conditionally registered in terms of sections 76 or 80 of the Children’s Act;

- (b) has applied to be registered in terms of section 81 of the Children’s Act with a provincial department of social development: Provided that proof that such an application was submitted, and that the application was not rejected in terms of section 97(1)(a) is furnished to the provincial department of social development; or
 - (c) has received a notice of enforcement to register in terms of section 85 of the Children’s Act: Provided that proof of such notice of enforcement is furnished to the provincial department of social development; or
 - (d) is required to be registered in terms of section 80 of the Children’s Act, but is not registered and has not applied to be registered: Provided that it undertakes in writing as part of Form 1 to submit its application to be registered within six months after the date of reopening.
- (3) The provisions of sub-directions (1) and (2) only apply to an early childhood development programme or partial care facility that was operational during the month that the national state of disaster was declared.
- (4) An early childhood development programme or partial care facility contemplated in sub-directions (1) and (2) must –
- (a) comply with the minimum health, safety and social distancing measures on COVID-19, referred to in these directions and the Regulations;
 - (b) comply with the standard operating procedures published on the website of the Department of Social Development;
 - (c) complete a self-assessment on Form 1 (Annexure A) to these directions manually or online at <https://www.forms.gle/R3WCFapcgyBfv7MA>;
 - (d) complete a declaration on Form 5 (Annexure E to these directions) confirming that the early childhood development programme or partial care facility complies with the minimum health, safety and social distancing measures and requirements on COVID-19 referred to in these directions and the standard operating procedures published on the Department of Social Development website and must display same publicly on the premises of the early childhood development programme or partial care facility;
 - (e) develop a workplace plan, contemplated in regulation 47(1)(b) and Annexure E to the Regulations;
 - (f) in the case of an early childhood development programme contemplated in sub-direction (1)(b), (c) or (d), the early childhood development programme must furnish proof that it has participated and submitted the required information as part of the national Vangasali campaign to identify and register unregistered early childhood development programmes <https://www.nelsonmandela.org/vangasali>.
- (5) The provisions of sub-direction (1) exclude a Grade R programme or class that is provided as a part of a public school or an independent school that falls under the provisions of the South African Schools Act, 1996 (Act No. 84 of 1996).
- (6) A public school or an independent school that complies with the minimum health, safety and social distancing measures on COVID-19 and is open; and has already phased in Grade R and Pre-Grade R, may continue with the opening of such Grade R and Pre-Grade R.
- (7) The provisions of sub-direction (2) exclude aftercare facilities that are part of a public school, an independent school or education support centre that falls under the provisions of the South African Schools Act, 1996.
- (8) Aftercare facilities for Grade R and Pre-Grade R that are managed by or operate—
- (a) at a public school or an independent school; or
 - (b) in education support centres, are allowed to re-open: Provided that they comply with the minimum health, safety and social distancing measures and requirements on COVID-19, as contained in Department of Health Guidelines.

- (9) An early childhood development programme or partial care facility that does not comply with the minimum health, safety and social distancing measures on COVID-19, must remain closed or be required to close until all the health, safety and social distancing measures are in place.

5. Conditions for return of children to early childhood development programme or partial care facility

- (1) A parent, legal guardian or a person designated by a parent or legal guardian, may, as far as it is practical, return a child to the same early childhood development programme or partial care facility that the child attended during the month that the national state of disaster was announced: Provided that such a programme or facility complies with the provisions of direction 4.
- (2) Subject to subdirection (3), a child must be accompanied by a parent or legal guardian, or, if not practically possible, by a person designated by a parent or legal guardian, every day when the child attends an early childhood development programme or a partial care facility and must be screened as provided for in direction 8. In the case of a child who is twelve years or younger and accompanied by a designated person, the parents or legal guardian must provide the child with the required information for the purpose of the symptom screening in terms of direction 8.
- (3) Where a child arrives at an early childhood programme or partial care facility without being accompanied by a person contemplated in subdirection (2) or without any information that may assist with symptom screening, that child may not be refused entry to the early childhood development programme or partial care facility and the procedure set out in the standard operating procedures must be applied.
- (4) A parent, legal guardian or a person designated by a parent or legal guardian has a right to enquire from the early childhood development programme or partial care facility about the details of the measures that have been put in place in terms of paragraph 4, before the parent, legal guardian or the person designated by the parent or legal guardian considers returning a child to an early childhood development programme or partial care facility.
- (5) A child with a known underlying health condition that may place the child at a higher than normal risk category as defined by the Department of Health, may not return to an early childhood development programme or partial care facility, unless a medical practitioner gives a written authorisation that it is safe for such a child to return to, and participate in, the early childhood development programme or partial care facility.
- (6) An early childhood development programme or partial care facility must inform every parent, legal guardian or a person designated by a parent or legal guardian who returns a child to the early childhood development programme or partial care facility, in writing—
 - (a) of the provisions of subdirections (1) to (5);
 - (b) that the return of a child to an early childhood development programme or partial care facility is voluntary; and
 - (c) that a child who returns to the programme or facility will be subjected to a daily screening as contemplated in direction 8.

6. Programme specific conditions for reopening of early childhood development programme or partial care facility

- (1) Despite the provisions of the Children's Act, 2005, the following requirements must be adhered to with regard to the physical space and number of children that may be readmitted to an early childhood development programme or partial care facility, so as to maximise physical social distancing and reduce the risks of transmission of COVID-19:

Type of ECD service	Inside early learning space	Outside space	Formula for number of children that may re-admitted
ECD centre	1.5 m ² (unobstructed space) per child	1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space divided by 1.5 m ² = maximum number of children in that space.
Playground	1.5 m ² (unobstructed space) per child	1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space / 1.5 m ² divided by maximum number of children in that space.
Child minder/ day mother	1.5 m ² (unobstructed space) per child	1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space / 1.5 m ² divided by maximum number of children in that space.
Toy-library	Play areas where a toy-library is providing the small play groups		
	1.5 m ² (unobstructed space) per child	1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space / 1.5 m ² divided by maximum number of children in that space.
	Passages in between shelves		
	Marked distanced of 1.5 meter and moving in the same direction	Not applicable	Not applicable
Mobile ECD programme		1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space / 1.5m ² divided by maximum number of children in that space
Parental support programme	1 m ² per parent attending with social distance of 1 meter between seats		Total m ² space divided by maximum number of parents attending in that space
Partial care providing afterschool services	1.5 m ² (unobstructed space) per child	1.5 m ² (unobstructed space) per child	Total m ² unobstructed early learning space / 1.5 m ² divided by maximum number of children in that space

- (2) Despite the provisions of the Children’s Act, and the regulations thereto, the following requirements must be adhered to with respect to age groups that may be readmitted to an early childhood development programme or partial care facility, so as to allow for a phased approach balanced with associated risks and compliance:

Type of ECD service	Age group	Date of return	Staff to child ratio

ECD centre	3, 4, 5 and 6-year olds	Immediately subject to the appropriate and/or prescribed safety measures being in place.	Subject to strict adherence to the child to staff ratios as contemplated in the norms and standards determined in terms of section 94 of the Children's Act.
	Birth to 35 months	Immediately subject to the appropriate and/or prescribed safety measures being in place.	
Playgroups	3, 4, 5 and 6-year olds	Immediately subject to the appropriate and/or prescribed safety measures being in place.	Subject to strict adherence to the child to staff ratios as contemplated in the norms and standards determined in terms of section 94 of the Children's Act.
	Birth to 35 months	Immediately subject to the appropriate and/or prescribed safety measures being in place.	
Child minder/ day mother	All age groups	Immediately subject to the appropriate and/or prescribed safety measures being in place.	Subject to requirements that a maximum of 6 children may return.
Toy-library	3 years and older	Immediately subject to the appropriate and/or prescribed safety measures being in place.	One play-facilitator per 15 children and no more one group at a time (in the case where a toy library provides group play activities)
Mobile ECD programme	All age groups	Immediately subject to the appropriate and/or prescribed safety measures being in place.	One ECD educator/ practitioner for every group of 10 children, with a maximum of 2 groups at a time OR Two staff members (one ECD educator/practitioner and one assistant) for every 15 children, with a maximum of 2 groups at a time.
Parental support programme	Not applicable	Immediately subject to the appropriate and/or prescribed safety measures being in place.	Maximum of 12 parents per group facilitator
Partial care providing afterschool services	All age groups	Immediately subject to the appropriate and/or prescribed safety measures being in place.	Subject to strict adherence to the norms and standards determined in terms of section 79 of the Children's Act.

- (3) Irrespective of whether an early childhood development programme or partial care facility meets the requirements contemplated in subparagraph (1), an early childhood development programme or partial care facility may not readmit more children than the number allowed in subparagraph (2).

7. Prohibited activities

- (1) The following activities are prohibited for the duration of the national state of disaster, irrespective of the applicable risk level:
- (a) outing and excursions;

- (b) extramural activities;
- (c) activities that are implemented by any external party that are not part of the staff establishment of the programme or facility; and
- (d) open days for external persons to visit the programme or facility.

8. Screening

- (1) An early childhood development programme or partial care facility must conduct screening in accordance with the Department of Health Guidelines.
- (2) A person who enters the premises where an early childhood development programme or partial care facility operates, must be screened to ascertain whether such a person has any of the observable symptoms associated with COVID-19 such as fever, cough, sore throat, redness of eyes, shortness of breath or difficulty in breathing.
- (3) A person who has any of the symptoms referred to in subdirection (2) or who experiences additional symptoms such as body aches, loss of smell or loss of taste, nausea, vomiting, diarrhea, fatigue, weakness or tiredness, while at an early childhood development programme or partial care facility, must immediately report such symptoms to the compliance officer or designated official.
- (4) If a person has or displays the symptoms referred to in subdirections (1) and (2), or informs the compliance officer or the designated official of having such symptoms, the early childhood development programme or partial care facility must—
 - (a) not permit the person to enter the premises; or
 - (b) not permit the child to enter the premises, except where the child is not accompanied by a parent or legal guardian in which case the child may enter the premises and must then be dealt with in the same manner as outlined in item (c); or
 - (c) if the person is already on the premises of an early childhood development programme or partial care facility—
 - (i) immediately isolate the person and require that person, or in the case of a child, advise the parent or guardian, to make arrangements to be transported in a manner that does not place any other person or members of the public at risk, either to be self-isolated or for a medical examination or testing;
 - (ii) assess the risk of transmission, disinfect the area and any staff member's workstation or area where the child participated in learning activities, refer those persons who may be at risk for screening and take any other appropriate measure to prevent possible transmission; and
 - (iii) inform the parent or legal guardian of a child without delay.
- (5) If there is evidence that a staff member contracted COVID-19 as a result of occupational exposure, the staff member may lodge a claim for compensation in terms of the Compensation for Occupational Injuries and Diseases Act, 1993 ([Act No. 130 of 1993](#)) in accordance with Notice 193 published on 3 March 2020, if applicable.
- (6) If a person has been diagnosed with COVID-19 and isolated in accordance with the Department of Health Guidelines, an early childhood development programme or partial care facility may allow the return of such a person to the early childhood development programme or partial care facility only if such a person has—
 - (a) undergone a medical evaluation in line with the Regulations; and
 - (b) tested negative for COVID-19.
- (7) If, on the advice and direction of the Department of Health, an early childhood development programme or a partial care facility is directed to close due to the risk of transmission of COVID-19, the early

childhood development programme or partial care facility must close immediately and—

- (a) inform all parents immediately of such a closure;
- (b) inform the provincial department of social development in writing of such closure within 24 hours;
- (c) adhere to the conditions and measures prescribed by the Department of Health with regard to the closure and the disinfection of all areas and equipment; and
- (d) only reopen on the date as directed by the Department of Health.

9. Sanitisers, hand washing, disinfectants and masks

- (1) An early childhood development programme or a partial care facility must ensure that there are—
 - (a) easily accessible and sufficient quantities of soap and hand sanitisers at its entrance and inside for use by children and staff members or other persons entering the early childhood development programme or partial care facility; and
 - (b) facilities for washing of hands with soap and clean water.
- (2) An early childhood development programme or a partial care facility must take proper measures to ensure that—
 - (a) premises, equipment and furniture are cleaned and disinfected;
 - (b) teaching and learning materials are thoroughly cleaned and disinfected as prescribed in the standard operating procedures; and
 - (c) all areas, such as toilets, common areas, door handles and shared electronic equipment, are regularly cleaned and disinfected.
- (3) An early childhood development programme or a partial care facility must—
 - (a) provide each staff member with a minimum of two cloth face masks; and
 - (b) require children, subject to subparagraph (4), and any other person entering the premises, to wear a cloth face mask, a homemade item that covers the nose and mouth or another appropriate item to cover the nose and mouth.
- (4)
 - (a) No child aged 24 months or younger may be required to wear a mask due to the associated risks.¹

¹ Scientific evidence shows that babies up to the age of two are at risk of suffocation when wearing a mask. The South African Pediatric Association also advised strongly that wearing of masks by children under two years should be discouraged because of the possible risk of suffocation.
 - (b) A child aged two to five years must be encouraged to wear a cloth face mask to prevent disease transmission, subject to measures set out in the standard operating procedures to guide and support young children with compliance and taking into account the child's age and developmental abilities.²

² Though it is recommended that a child older than 2 years should ideally wear a cloth face mask to prevent disease transmission. However, it is well recognised that children between 2 and 5 years cope poorly with wearing a mask, regularly touching or removing it, reducing any benefit.
- (5) For the purposes of these directions, a hand sanitiser must be one that contains at least 70% alcohol and complies with the recommendations of the Department of Health.

10. Social distancing in an early childhood development programme or partial care facility

- (1) An early childhood development programme or a partial care facility must, subject to subdirections (2) and (3), comply with the social distancing requirement of at least 1.5 meters prescribed in the Regulations.

- (2) The measures for social distancing may be adjusted in a manner prescribed in the standard operating procedures to accommodate the age and development stage of children attending an early childhood development programme or a partial care facility.
- (3) An early childhood development programme or partial care facility must review and adjust its daily programmes and routines in a manner that is supportive towards the implementation of social distancing for children attending an early childhood development programme or a partial care facility.

11. Adjustment to and implementation of early learning curriculum and learning programme

- (1) An early childhood development programme and, where applicable, a partial care facility, must adjust and adapt the curriculum and content of the early learning programmes to integrate into the existing learning areas, age appropriate content relating to—
 - (a) COVID-19; and
 - (b) health and hygiene practices.
- (2) The normal daily routines that form part of the early learning programme must be adjusted to accommodate additional hygiene practices and age appropriate learning activities in relation to COVID-19 measures.

12. Issuing of permits and certificates for movement of staff and children

- (1) In accordance with regulation 33(4) of the Regulations, read with regulations 34(5) and (6) of the Regulations, movement between provinces, metropolitan areas and districts is permitted—
 - (a) for a staff member working at an early childhood development programme or a partial care facility who has a permit that substantially corresponds with Form 2 (in Annexure A to the Regulations) to perform a permitted service during the applicable Alert Level and who has to commute to and from work on a daily basis; and
 - (b) for a child who has been issued with a certificate that substantially corresponds with Form 3A (Regulation 34(5)), in Annexure A to the Regulations, to commute to and from an early childhood development programme or a partial care facility on a daily basis.
- (2) A permit referred to in subdirection (1)(a) may be issued by a delegated official or, in the case of an early childhood development programme or a partial care facility, by a principal or manager or a person delegated by him or her.
- (3) The certificate referred to in subdirection (1)(b) may be issued by the principal or manager of an early childhood development programme or a partial care facility or a delegated official.
- (4) The issuing of permits and certificates referred to in subdirection (1) must be done in compliance with the Regulations.
- (5) A staff member of an early childhood development programme or a partial care facility may commute between his or her place of residence, office and school within his or her provincial area of work for purposes of performing permitted services upon presenting the permit referred to in subdirection (1), together with any form of identification, if requested to do so by an enforcement officer.
- (6) A child, other than a child referred to in subdirection (1)(b), must be issued with a certificate, by the principal or manager or a person so delegated on a form which corresponds to Form 2 (Annexure B to these directions) for purposes of travel, which states that the child attends that specific early childhood development programme or partial care facility.
- (7) A certificate referred to in subdirection (6) must contain the name and address of the early childhood development programme or partial care facility and the particulars of the child concerned, including the contact details of the parent or legal guardian of the child.

- (8) A certificate and permit referred to in subdirections (1), (3) and (7) respectively, must be issued no later than seven days from the respective commencement dates specified for the phased return of children and staff contemplated in direction 6.

13. General safety measures at early childhood development programme or partial care facility for duration of national state of disaster

- (1) An early childhood development programme or a partial care facility must keep a record of the following information pertaining to every child that is admitted to the programme or facility:
- (a) Full names and surname of the child;

Form 1

Department of Social Development

Self-assessment form to be completed by an early childhood development programme or partial care facility that provides an after-school service prior to re-opening under the national state of disaster

This form can also be completed online at <https://forms.gle/c7y8ZL5W94diugTS6> if possible, you are encouraged to complete the online form.

Introduction

This self-assessment form must be completed by an early childhood development programme or partial care facility that provides an after school service and intends to re-open under duration of the state of disaster, subject to the pronouncement of a date and the conditions of such re-opening by the Minister of Social Development.

This SELF-ASSESSMENT is a series of questions and statements based on the minimum health, safety and social distancing measures on COVID-19 that an early childhood development programme or partial care facility must comply with before it may re-open and receive children again. It helps you, when you answer the questions truthfully, to be certain that you meet the minimum requirements, and also provide the information on your own assessment to the Department of Social Development to confirm that you have checked all the measures yourself.

Please READ the following before you complete this self-assessment:

1. The completion and submission of this form does not mean that you can re-open the early childhood development programme or partial care facility. It may only be re-opened when the Minister of Social Development has announced a date for the re-opening and if you meet all the requirements as indicated below and in [sections 4.1 and 4.2](#).
2. Please do not complete this form unless you have completed all the preparations needed to comply with the minimum health, safety and social distancing measures on COVID-19 before re-opening (the relevant information can be found in the DSD's Standard operating procedures and guidelines for early childhood development programmes and partial care facilities on COVID-19). Your answers need to be based on these preparations.
3. You must answer all the sections and questions that apply to your type of programme. If it does not apply, please mark the 'not applicable' option.
4. The information that you provide in this self-assessment will be submitted to the DSD, who may conduct a site visit prior to the re-opening date (still to be announced) or anytime thereafter to check whether the information provided is correct.
5. If you have completed the self-assessment form and have indicated that you are ready to reopen, a copy of this form needs to be submitted to your closest office of the Department of Social Development who may conduct a site visit to verify this.

PLEASE NOTE: This self-assessment form may only be completed by a person authorized (have the permission) by the ECD programme or partial care facility manager/ principal/ owner to complete it.

Annexure D

Form 4

Verification & monitoring

compliance with measures to address, prevent and combat the spread of COVID-19 in early childhood development programmes or partial care facilities in the Republic of South Africa. [Direction 4(7)]

Purpose of this form

Form 4 needs to be used for the purpose of verification or monitoring of compliance with the conditions set for the re-opening and management of an early childhood development programme or partial care facility, which may include, -

- (a) an assessment/verification of an early childhood development programme or partial care facility prior to the re-opening; and
- (b) monitoring visits or assessments for the purpose of ensuring compliance after the re-opening of an early childhood development programme or partial care facility.

This verification or monitoring may be done by an official from the National Department of Social Development, provincial Department of Social Development, or a person from a designated organisation that has been authorized in writing to assist with assessment, verification, monitoring and support.

Guideline

Online: Form 4 is available online at <https://forms.gle/sriVSvgiBijMHyVbA> and needs to be completed online. If it is not possible to do an online form, a paper-based copy may be used and needs to be submitted to the nearest service office.

Rationale for monitoring

Due to the COVID-19 pandemic several and various policies, protocols and practices have to be implemented to reduce the transmission of the virus. With the risks associated with the COVID-19 pandemic, it is vital that the early childhood development programme or partial care facility be monitored to determine whether the measures to address, prevent and combat the spread of COVID-19 are in place, and if not, to provide the necessary guidance, support and direction for adherence.

Preparation for verification or monitoring

Verification or monitoring should always be done in a supportive manner. Never do any verification or monitoring without being thoroughly prepared. The person doing the verification or monitoring needs to have sufficient and correct knowledge regarding the measures to address, prevent and combat the spread of COVID-19 in general, and these apply to an early childhood development programme or partial care facility, so that the monitor can also guide programme or facility to meet the requirements.

The person doing the verification or monitoring visit shall have copies (paper or electronically) and a reasonable level of knowledge of the following documents as to be able to execute a high-quality monitoring visit and to be able to provide guidance and support as needed:

- (a) Department of Social Development's Standard Operating Procedures and Guidelines for an early childhood development programme or partial care facility that provides an after-school service on measures to address, prevent and combat the spread of COVID-19
- (b) Circular regarding preparation and planning for the re-opening of early childhood development programmes or partial care facilities that provide an after-school service, subject to the announcement of a date by the Minister of Social Development issued under the signature of the Acting Director-General of the DSD on 21 June 2020;
- (c) Minister of Social Development's Directions regarding the re-opening of early childhood development programmes or partial care facilities and measures to address, prevent and combat the spread of COVID-19 in early childhood development programmes or partial care facilities that provide an after school service in the Republic of South Africa ((once published in the *Government Gazette*))

- (d) Regulations in terms of section 27(2) of the Disaster Management Act, 2002, published by Government Notice No. R. 480 of 29 April 2020 (Government *Gazette* No. 43364), or amendment thereof;
- (e) Directions on Health and Safety Measures in the Workplace by the Minister of Employment and Labour in terms of regulation 4(10) of the Regulations R480 of 29 April 2020 issued by the Minister of Cooperative Governance and Traditional Affairs in terms of section 27(2) of the Disaster Management Act, 2002 ([Act No. 57 of 2002](#)) by Government Notice No. R. 639 of 4 June 2020 (Government *Gazette* No. 43400), or any subsequent Directions that may be issued;
- (f) The Department of Health's Guidelines can be downloaded here:
https://cdn.ymaws.com/www.saioh.co.za/resource/resmgr/docs/2020/9_2020_v4_14_4_2020_guidance.pdf
- (g) Directions issued in terms of regulation 10(5) of the Regulations made under section 27(2) of the Disaster Management Act, 2002 (Act No. 57 OF 2002): Measures to Prevent And Combat The Spread of COVID-19 published by Government Notice No 430 of 30 March 2020 (Government *Gazette* No. 43182), as amended, issued by the Minister of Social Development.
- (h) Directions issued in terms of regulation 4 (3) of the Regulations made under the Act regarding the re-opening of early childhood development programmes or partial care facilities that provide an after-school service and measures to address, prevent and combat the spread of COVID-19 issued by the Minister of Social Development (once published in the Government *Gazette*).
- (i) Any other Direction issued by a member of Cabinet in terms of regulation 10 of the Regulations made under section 27(2) of the Disaster Management Act, 2002 (Act No. 57 OF 2002) that apply directly or indirectly to the operations of an early childhood development programme or partial care facility under COVID-19.

An enabling approach

The verification or monitoring to ensure compliance with the measures to address, prevent and combat the spread of COVID-19 is a requirement, but is also a collaborative and supportive process between the party responsible for the monitoring and the early childhood development programme or partial care facility that is being monitored. Therefore, it is important that the verification or monitoring process is engaging based on discussions with principal, programme supervisor or person responsible regarding areas of compliance and non-compliance.

In the case where there is any area of non-compliance apply the following principles:

1. Discuss the area of non-compliance with the early childhood development programme or partial care facility as to ascertain whether they understand what is being required and explain the reasons, if any, for non-compliance (non-compliance may be due to not understanding what is required in a particular area).
2. Determine the reasons why the early childhood development programme or partial care facility is struggling to comply with or implement the specific area or element.
3. Focus on solving the problem of non-compliance with the early childhood development programme or partial care facility through creative and innovative means.
4. In the case where there it is evident that the area or element that needs to be in place and implemented will not be possible, contact a social service practitioner at the nearest office of the Department of Social Development for advice and support.

How to conduct the monitoring visit

Every verification or monitoring visit needs to be conducted in a professional and respectful manner. The following will assist with that:

1. Upon arrival, first find the manager or person in charge of the early childhood development programme or partial care facility before you start the verification or monitoring visit.
2. Introduce yourself and confirm that you have permission to do the verification or monitoring visit. Introduce yourself, the organisation you represent and explain the purpose of the verification or

monitoring visit and how it will be conducted.

3. Explain that the verification or monitoring visit is needed to ensure that the early childhood development programme or partial care facility is compliant with the measures to address, prevent and combat the spread of COVID-19 as published in the Regulations, the Directives and the SOP issued by the Department of Social Development, but ALSO to determine where you can be of assistance when they struggle with some areas of compliance or refer them for assistance.
4. Also indicate that you will be looking at the same areas that they indicated in the self-assessment questionnaire as well as some items in the standard operating procedures.
5. Request the manager or person in charge or person designated to accompany you when you walk through the early childhood development programme or partial care facility.
6. Complete this Form 4 while you conduct the verification or monitoring visit.
7. If something is unclear, ask the person who accompanies you.
8. Always provide your contact details to the manager before you leave.
9. Before you leave the early childhood development programme or partial care facility, you must first provide the manager with feedback on your findings and recommendations, as far as possible and feasible.
10. Be clear about the next steps.

Remember:

- You are required to wear a face mask during the whole visit
- You must adhere to the entry symptom screening before you enter the premises
- Wash your hands regularly or use hand sanitiser.
- Maintain a physical distance of at least 1 metre from staff and children at all times
- Refrain from touching surfaces and objects if possible

Remember the success of a verification or monitoring visit largely depends on the attitude and approach of the person conducting the monitoring. Always be friendly, supportive and caring in your interactions with management and staff.

Monitoring questionnaire

How to complete this form:

- The person doing the verification or monitoring (monitoring official) must complete section A.
- All sections must be completed. If an area or element is not applicable, indicate clearly N/A for not applicable. Do not leave open.
- Each item in the checklist in section C should have a tick (to show requirement has been met) or cross (to show not met) next to it - none should be left blank.
- The monitoring official should then tick ONE OPTION ONLY of the three statements in section D.
- This form must be signed and dated by the monitoring official, as well as the manager or designated person of the early childhood development programme or partial care facility that was verified / monitored. (If this form is completed electronically, this will be done automatically)
